DETAILED ACTION

The amendment filed November 26, 2004 has been received.

The text of those sections of Title 35, U.S. Code not included in this action can be found in the prior Office action.

Clarification is needed on paragraph [0004] with regard to the origin of the instant plant being found amongst the seedlings of the parental trees at North Dakota State University (NDSU) campus and that the instant cultivar was transplanted to NDSU campus. In addition, paragraph [0009], states that the instant plant originated from seed collected from trees growing at NDSU campus.

Claim Rejections

35 USC § 112

Claim 1 remains rejected under 35 U.S.C. 112 first and second paragraphs for the reasons stated in the last Office Action (dated August 24, 2004).

Applicants' amendment dated November 26, 2004 failed to address the following previous grounds of rejection:

- A. Applicants have not set forth in the specification a botanical description of the floret's size (length and diameter), flower type, petal number, and petal size. Correction is necessary.

- B. Applicants have not set forth in the specification the calyx's shape, average size, and color designation with reference to the employed color chart in the interest of providing as complete a botanical description of the plant as is reasonably possible. Correction is necessary.

Art Unit: 1661

C. Applicants have not set forth into the specification the lastingness, blooming period and fragrance of the bloom. Correction is necessary.

D. Applicants have not set forth in the specification the reproductive organs such as number of stamens and pistils, lengths of the filaments and pistil, pollen color at least in general color terms, and color designation with reference to the employed color chart of the filaments, anthers, style and stigma in the interest of providing as complete a botanical description of the plant as is reasonably possible. Correction is necessary.

Conclusion

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Comments

Applicants response dated November 26, 2004 to the request for information under 37 CFR 1.105 regarding the offer for sale or public use of the instant cultivar in this country has shown that the instant cultivar has not been offer for sale or in public use more than one year prior to the filing date of this application (page 2 of reply).
